

## CITY OF LODI

## COUNCIL COMMUNICATION

**AGENDA TITLE:** Approve Plans and Specifications and Authorize Advertisement for Bids for Traffic Signal and Lighting Improvements at Intersection of Harney Lane and Stockton Street

**MEETING DATE:** August 15, 2001

**PREPARED BY:** Public Works Director

**RECOMMENDED ACTION:** That the City Council approve the plans and specifications for the above project, and authorize advertising for bids.

**BACKGROUND INFORMATION:** The project includes installing a traffic signal and street lighting at the Harney Lane and Stockton Street intersection. At the February 7, 2001 City Council meeting, City Council authorized the City Manager to execute a professional service agreement with Y & C Transportation Consultants, Inc., for this project. The consultant recently completed the plans and specifications for the traffic signal design.

Staff is currently reviewing and evaluating other funding sources for additional traffic signal installations. Since this project is adjacent to a planned development, the installation will be coordinated with the developer's improvements. The Improvement Agreement for the adjacent development anticipates the possibility that some of the traffic signal improvements (pole base, conduit, pull boxes, and detector loops) may be installed by the developer.

The plans and specifications are on file in the Public Works Department.

**FUNDING:** This project is funded by several sources, Measure K and Local Streets Impact Fees. A request for appropriation of funds will be made at contract award. The project estimate includes preliminary engineering, construction management, and project construction.

Project Estimate: \$190,000  
Planned Bid Opening Date: September 12, 2001
